

**North County Youth Soccer Association
Annual Report 2009**

Respectfully submitted by Dan Campbell, President

In 2009, through the work of many volunteers our program continues to be successful, giving players from ages 3 – 18 an opportunity for a competitive, fun, positive year of soccer. Our player count is approximately 8,300 players; with the team count at 843.

Our annual Coaches D Clinic held in July had a full class of 31 coaches. Several clubs within the association hosted E Clinics as well as other independent coaching clinics.

Referee recruitment and re-certification was a major objective in 2009 and there were numerous Grade 8 and 9 entry level clinics offered throughout the Spring and Summer in Everett, Lake Stevens, Marysville, Lakewood, Monroe and Mukilteo. Four (4) re-certification clinics were held in the Spring and Fall. This has helped with the demand for more referees. NCYSA also hosted a Referee Assignor Clinic in May and a Referee Instructors Clinic in December.

We had two of our smaller clubs merge (Arlington and Lakewood North) to become North Sound.

NCYSA offers a wide range of playing opportunity for our membership:

- With nine of our clubs we continued to inter-tie our recreational league with South and Central Whidbey Clubs, Snohomish, Sno-King, Terrace-Brier and older Skagit teams. This provides our organizations with a good level of competition for players in the recreational program.
- Evergreen, Washington Rush, Mukilteo, North Sound and Sky River Clubs offered higher levels of competition with teams playing in WSYL, WYSDL, PDL, NPSL and District I.

North County sanctioned the following successful tournaments in 2009:

Lake Stevens Little Bash Jamboree in August
Marysville Strawberry Classic in August
Sky River in August
Mukilteo Turkey Shoot in November
Lake Stevens Jingle Bell Bash (mod) in December

NCYSA had teams participating in all state tournaments with success in President's Cup with three teams in the finals and the U11B Irish Galindo winning the top prize in their division.
